Calgary Homeless Foundation guides the fight against homelessness in Calgary. We allocate resources for highest impact and outcomes, maximizing benefits for people experiencing homelessness.

All CHF-funded Recovery-Oriented housing program referrals go through the Coordinated Access & Assessment (CAA) program coordinated by CHF with Access and Assessment provided by the CAA Team at SORCe. If you are working with an individual that you believe would be a fit into the Homeless Serving System of Care please complete the following and you will be contacted by a Housing Strategist in regards to next steps. Not all referrals will enter the CAA triage list for entry into Recovery-Oriented housing programs and this will be determined with you based on the following information as a pre-screen method for CAA.

A Housing Strategist will connect with you within 1-2 days following form submission.
